LIGHT DRAWS ATTENTION

Especially, if your advertisement is floating bright and perfectly illuminated above your customers' heads. Impossible? No, thanks to the OCTALUMINA® cube, this is now a reality. And thanks to the minimalistic frame design it looks great while doing so.

The light weight OCTALUMINA® cube is perfect for large format ceiling suspension with an edge length of up to 2.5 m.

The amount and geometry of the illumination is specifically designed for each cubes format to ensure a consistent illumination and maximum brightness.
